texlyweave woven vinyl is uniquely textured, offering a feel and look like a natural plant fiber. Our woven vinyl fabric can be extended as upholstery and wall-to-floor products. We have been the leading manufacturer and exporter of woven vinyl products for over 20 years. All our products are tested and suitable for public environment applications. The intricately woven natural-like design appeals to you to touch it, and its elegant gene makes it possible for luxurious and individual demand.

We have successfully developed the needed technology and know-how to reach its present leadership position. We count on a qualified technical team that analyses all quality parameters of fabrics and wall-to-floor products to develop the best solutions according to market needs and anticipate events.

After years of effort, we developed our products in the wake of international standards and trends, our product quality continued improving, and the market gradually expanded. As a result, our brand has been recognized in the global and domestic markets; so far, we have more than hundreds of projects every year across different high-grade and lively places; our woven vinyl can satisfy the customer's diverse needs. In the meantime, we signed many sole agent agreements with different regions or agreed distribution services to other places as well; the reward of all the above was that we achieved a lot of valuable suggestions, and our international team will keep expanding in flooring and wallcovering in the future, we will make texlyweave® and texlymat® a good and un-neglected choice to the customer.

texlyweave® - The innovative woven vinyl floor, wall-to-wall floor and wallcovering.

texlyweave presents its joyful new collections based on the awareness of every single gesture we make, which, in the world of color and texture, means research to conceive of exciting fresh, updated originality, whose surface dynamic and healthy products with high performances. texlyweave wants to create a new engineered surface with vinyl-coated yarn that significantly increases wear resistance and two-tone aesthetics that enhance the tactile experience of the textures. The technology allows characters to be used, cleaned and enjoyed longer. Nature infuses us with an intimate sense of peace to remind us of the little pleasures of childhood: from the games that used to fill our days to the ecstatic gaze in front of the season's colors. This time, the scrubby resin is shimmering.

texlymat® - luxurious yet low-maintenance materials used in this ultra-stylish floor mats and placemats offering exceptional design and performance.

Most of the products have passed the test of woven vinyl flooring specs at standard EN ISO 1307: 2014 and the FR test.

Grainy: A juxtapositional dark and light texture to imitate the wood bark, the vintage background, and old and ruined panels look.

We took the colors from natural wood species and old ruined panels.

The swell authenticity wood look design, the high-performance juxtaposition of dark and light. The two-tone vinyl yarn is fine and brief but with exquisite detail of pinus forest. The scrubby resin is shimmering.
