

MOSS

WOVEN VINYL WALL 2 FLOOR

texlyweave®

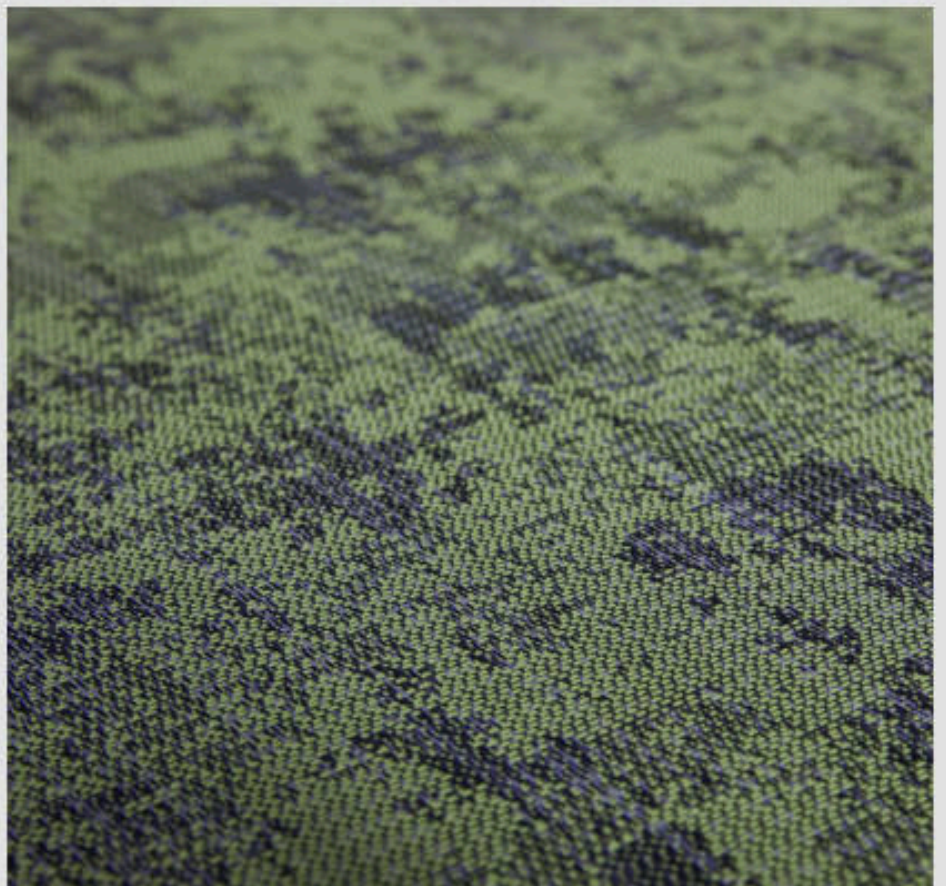

we challenge the norms of weaving

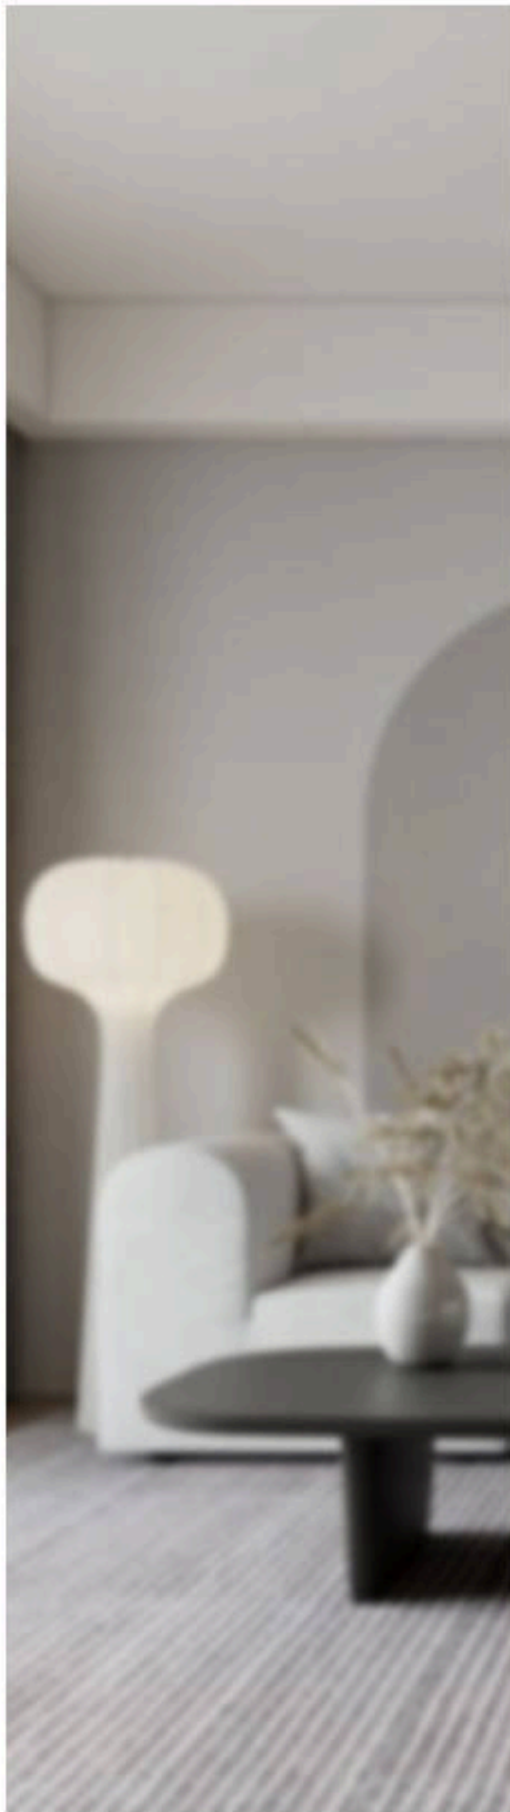

MOSS

The natural flocky stained with moss and lichen

It is a stunner with everything going for it, texture, repeat, and even immersed antique brass. Nostalgic, neat, but luxurious, the Moss Collection brings you an irresistible combination of pleasure and modern style in your office space. Two-tone coated yarn produces a blend of metal-extruded and flax fiber; the floor is richly colorful, stylish, cool, and warm.

UNIQUE FEEL & MODERN LOOK

Moss is a two-tone coated yarn woven vinyl with a solid natural connotation that actively contributes to living space style. For interiors from wall to floor, Moss is formulated on specific properties beyond abstract and representation, selected natural colors and textures that, appropriately balanced, allow an excellent appearance.

VERSATILE & ELEGANT

Moss is a versatile product, suitable for use in environments with different styles. It allows you to obtain high-quality finishes with cloudy aesthetic effects, with soft, calm, or bright colors, while providing an elegant surface complement for spacious interiors. It can be applied more traditionally with the wall hanging, panel covering, furniture upholstery, worked with our w2w flooring, use of modular carpet, or combined with other products.
